## The Intelligencer.

Office : Nos. 25 and 27 Fourteenth Street. AGRICULTURAL EXPERIMENT STATION. A Bulletin from Director Myers, of the Morgantown Station-Objects of the

Bulletin No. 1 of the West Virginia Agricultural Experiment Station, at Agricultural Experiment Station, at the dying embers of the machine of Morgantown, John A. Myers, Director, Mercer county Democracy, and to issue

dicating an outline of the work to be undertaken for the next year.

The Board finds itself without any buildings for the Experiment Station, without any farm for experimental work and with no money, outside of the restricted appropriation for building purposes, with which to provide either. The Director found the Station without a staff of scientific workers and with no place to put them if he had them.

It will thus be seen that we are starting with the foundation. It need not be expected that the Station can accomplish much scientific work until we have had time to overcome the difficulties facing us.

acing us.
It is hoped that the farmers of West It is hoped that the farmers of West Virginia will press the matter of agricultural education in our State so vigorously in the near future that our Legislature will be constrained to provide for the promotion of a more profitable system of agriculture. The National government has been liberal to this State, and particularly to the farming classes, in its endeavor to develop agricultural interests. The question may be asked very serionsly, "What has our State done to avail itself of the munificence of the general government?" To what extent has it supplemented the efforts of our National government to develop the agricultural interests of this State and to educate our farming classes? " " " THE OBJECTS OF THE EXPERIMENTAL STA-

THE OBJECTS OF THE EXPERIMENTAL STATION.

This is clearly given in the second section of what is known as the Hatch Act: "That it shall be the object of said Experiment Stations to conduct original researches or verify experiments on the physiology of plants and animals; the diseases to which they are severally subject, with genedies for the same; the chemical composition of useful plants at their different stages of growth; the comparative advantages of rotative cropping as pursued under a varying series of crops; the capacity of new plants or trees for acclimation, the analysis of soils and water; the chemical composition of manures, natural and artificial, with experiments designed to test their comre proprietors of the HOMESTEAD LIVER ILLS, best pill ever used. PLEASANT WORM SYRUP, most effectual yorm Syrup ever prepared.

SOAP CLEANER

We are very sure of the foundation upon which we are trying to build up the experimental work of the station, and as the scheme is perfected and facilities for carrying it out are placed in our hands, we have not the slightest doubt that our farmers will got a greater benefit from the Experimental station than the our farmers will got a greater benefit from the Experimental station than the our farmers of the State, the state Grange, the co-operative associations in the State Grange, the co-operat Breakfast.

"By a thorough isnowledge of digestic 1 and nutrition, and by a careful application of the interpreparties of well selected Cocoa. Mr. Epps has provided our breakfast tables with a delicately favored beyerage which may save us many heavy doctors' bills. It is by the judicious use of such articles of dies that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a week point. We may see many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Utvil Service Gasette.

Made sinply with boiling water or milk, Soid only in half-pound time by Grocers, tabeled thus: I MRS EPPS & CO., Iste, London, England, felteruthas

respond without in regard to all matters of importance contected with the development of the State. Everything that we can do will be done absolutely free of cost to them. \* 2 
We will test any kind of seeds as to purity and germinating powers examine soils, grasses, fodders, feed-stuffs, weeds, insects, insect powders, iertilizers, moulds, fungi; investigate prevailing diseases among animals and plants; experiment on adaptability of various species of grains, fruits, grasses and forage crops; assistant or organizing creameries and give instruction in dairy practice, and in the art of dehorning cattle. We will make milk tests of cattle where public benefit is derived from the same and will give instruction in any of the methods employed at the Station free of charge. We will supply the farmers with plans for building reameries and equipping same; give plans for building silos. As soon as our organization can be perfected, we hope to be able to carry en with our work of a popular character, scientific investigations that may contribute original unsiter for the advancement of our knowledge of agricultural subjects,

subjects, Get his or That Bad Tasie.

When you wake up in the morning with a bad taste in your mouth, with your threat and tongue dry and a yellow coating on your teeth and guns, don't imagine it was all caused by what you ate the night before. Of course everybody does that and everybody "swars off" from again eating such food. The trouble is that your liver is clogged, your kidneys are overworked and your bowels are not doing their duty. Take form three to ten of Brndreih's pills and note the sudden and wonderful change in your system.

Beware, as the potter said to the clay, Get Hid of That Bad Taste

Beware, as the potter said to the clay. A SAD STORY.

## THE MERCER COUNTY INDICTMENTS. The Action of the Court—As Altorney Dis-barred for Criticising a Pariless Charge. More Democrate Than Republicans Could Have Been Indicted. To the Editor of the Intelligencer.

Sin:—The Circuit Court adjourned the 20th day of December, having continued

Morgantown, John A. Myers, Director, has been issued, from which we take the following interesting extracts:

The West Virginia Agricultural Experiment Station was organized in June, 1888, by the Board of Regents of the West Virginia University accepting the West Virginia University accepting the Congressional appropriation, dividing it could fall to discern, this is evidenced given to the Grand Jury no one present could fall to discern, this is evidenced from suppointing suitable committees and indicating an outline of the work to be undertaken for the next year.

The Board finds itself without any votes, and the number of names upon in the five districts in this county. There were cast in the Rock district about 1,038 y votes, and the number of names upon the Assessor's books for this district is 625. There were cast in Beaver Pond district about 541 votes, and the number of names upon the Assessor's books for this district is 400. There were cast in Flynmouth district about 392 votes, and the number of names upon the Assessor's books for this district is 400. There were cast in Jumping Branch district about 107 votes, and the number of names on the Assessor's books for this district is 160. There were cast in Jumping Branch district district is 160. There were cast in Jumping Branch and the Rock Jumping Branch and the Rock Jumping Branch naving a Republican majority of but two votes. Two precincts in the Rock district are Democratic and two precincts are largely Republican, and these two are the only precincts in the county which were subject to the particular attention of the Judge through his instructions to the Grand Jury, and no one voting at any other precinct in the county was indicted because his name did not appear upon the Assessor's books. books

root.

If there had been a Republican Judge upon the bench willing to devote himself to the punishment of Democrats let us see how the case would stand. First, there were 150 Republicans who voted at the two Republican precincts, whose names the Grand Jury knew from the
